

Santiago Jimenez-Navarro

PhD Candidate in Computer Science

 s.jimenez@unizar.es  santiagojn  santiagojn.github.io  santiagojn

EDUCATION

PhD Program in Computer Science

2024 — Present

University of Zaragoza, Spain
Thesis supervised by Prof. Ana Serrano and Prof. Belen Masia (Graphics and Imaging Lab), titled Perceptually-informed Material Appearance Modeling and Editing

Master Program in Robotics, Graphics and Computer Vision

2022 — 2024

University of Zaragoza, Spain
Master thesis: [Learning Interpretable Representations of Material appearance](#), funded by a competitive scholarship from the Aragon Institute for Engineering Research (I3A), and graded with a 9.5 (out of 10) with honors

BSc in Computer Science

2018 — 2022

University of Zaragoza, Spain
Final degree project: [Audiovisual Saliency Prediction in 360° Content](#), graded with a 9.6 (out of 10), and awarded by the Santander Bank as the [third best](#) in the field of engineering and architecture

PUBLICATIONS

A Controllable Appearance Representation for Flexible Transfer and Editing

2025

[S. Jimenez-Navarro](#), J. Guerrero-Viu, B. Masia
Eurographics Symposium on Rendering (EGSR) - doi.org/10.2312/sr.20251187

Style-Aware Gloss Control for Generative Non-Photorealistic Rendering

2025

[S. Jimenez-Navarro](#), B. Masia, A. Serrano
Under Review

RESEARCH EXPERIENCE

MSc Research Internship

Feb 2023 — Jun 2023

Professional internship on the subject *Disentangled latent representations of material appearance with unsupervised learning*, within the Graphics and Imaging Lab

BSc Research Internship

Dec 2021 — Mar 2022

Professional internship on the subject *Audiovisual saliency prediction in 360° content*, within the graphics and Imaging Lab

TECHNOLOGIES

Programming Languages

- Python (conda, PyTorch, TensorFlow, NumPy...)
- C++
- MATLAB
- LaTeX

Software

- Git
- Photoshop
- Google ecosystem
- Inkscape

AWARDS

- Master Thesis Scholarship**2023
- Scholarship for funding the development of my Master Thesis, awarded by the Aragon Institute for Engineering Research
- Third Best Final Degree Project in the Field of Engineering and Architecture**2023
- Awarded by the Santander Bank

TEACHING AND SUPERVISION

- Measuring Material Appearance Similarity: Analysis of a Learning-based Metric**Feb 2025 — Jul 2025
- Ming Tao Ye - BSc Thesis in Computer Science
- Grade: 9.7 (with honors)

PROFESSIONAL SERVICE

- Reviewer**
- Eurographics 2026

RESEARCH ACTIVITIES

- EGSR 2025 Oral Talk**2025
- Oral presentation of our work *A Controllable Appearance Representation for Flexible Transfer and Editing*
- Machine Learning Summer School**2025
- Attended the 8th Advanced Course on Data Science & Machine Learning (ACDL2025) summer school, with lecturers from institutions such as Princeton University, Google DeepMind, EPFL, Stanford University, or Google Research
- Poster Presentation**2024
- XIII Young Researchers' Day, University of Zaragoza

DISSEMINATION

- European Researchers' Night**2024
- Dissemination activity in which we present our research projects to the local community, including assistants of all ages and backgrounds
- Young Researchers' Day**
- Presented our poster on *Aprendizaje no Supervisado de Representaciones Interpretables y Desenredadas de la Apariencia de Materiales* in an event organized by the Aragon Institute for Engineering Research (I3A)

LANGUAGES

- Spanish:** Native
- English:** Fluent2020
- Cambridge English Level 2 Certificate in ESOL International (CAE, C1)
- Grade B (198 / 210)
- Japanese:** Intermediate2024
- 日本語能力試験 N3
- Score 126 / 180 – Percentile 88.4
- French:** Intermediate
